RE: Information Request

As the Federation plans to present a proposal for changes to Article X, Sections 8.1 - 8.5 (FPD requirements), we need a better understanding as to how the District calculates and interprets the regulatory requirements it deems necessary to meet.

We request a presentation or written document(s) that detail:

- The regulations the District follows regarding FPD.
- The auditing practices and requirements the District is attempting to meet regarding FPD.

We request this presentation or document(s) be provided no later than October 24, 2025, or at a negotiations session closest to that date.
