Government Code Section 53060;  
Labor Code Section 3353;  
Public Contract Code Section 10335.5, 20651  
**Assembly Bill 5 (AB5) and related legal authority**

The District may enter into personal services contracts to achieve cost savings when each of the following conditions are met:

- It can be clearly demonstrated that the proposed contract will result in actual overall cost savings to the District;
- The contractor's wages are at the industry's level and do not undercut District pay rates;
- The contract does not cause the displacement of District employees;
- The savings are large enough to ensure that employees will not be eliminated by private sector and District cost fluctuations that could normally be expected during the contracting period;
- The amount of savings clearly justifies the size and duration of the contracting agreement;
- The contract is awarded through a publicized, competitive bidding process **when contract total exceeds formal bid limits**;
- The contract includes specific provisions pertaining to the qualifications of the staff that will perform the work under the contract, as well as assurance that the contractor's hiring practices meet applicable nondiscrimination standards;
- The potential for future economic risk to the District from potential contractor rate increases is minimal;
- ~~The contract is with a firm; and~~
- The potential economic advantage of contracting is not outweighed by the public's interest in having a particular function performed directly by the District.

Personal service contracts are also permissible when any one of the following conditions is met:

- the contract is for new functions mandated or authorized by Legislature to be performed by independent contractors;
- the services are not available within the District or cannot be satisfactorily performed by District employees;
- the services are incidental to a purchase or lease contract;
- the policy, administrative, or legal goals and purposes of the District cannot be

accomplished through the regular or ordinary hiring process;

- the work meets the criteria for emergency appointment equipment, materials, facilities, or support services could not feasibly be provided by the District; or
- the services are of an urgent, temporary, or occasional nature.

### **Professional Experts**

Contracts for the services of persons who qualify as professional experts may be let without competitive bidding. Professional experts are persons specially qualified to provide services and advise in financial, economic, accounting, engineering, legal or administrative matters. They must be specially trained, experienced, and competent to perform the services required. Compensation for special services and advice from professional experts may be paid from available funds in the amounts deemed proper for the services rendered.

**NOTE:** *AB 5, which went into effect on January 1, 2020, codified the “ABC” test for determining independent contractor status that the California Supreme Court adopted in its 2018 decision, *Dynamex Operations West, Inc. v. Superior Court* (2018) 4 Cal.5th 901. However, the longstanding multifactor test established in *S.G. Borello & Sons, Inc. v. Department of Industrial Relations* (1989) 48 Cal.3d 341, still applies to certain occupations. These occupations include: insurance agents; medical professionals such as physicians, dentists, podiatrists, psychologists, and veterinarians; licensed professionals such as attorneys, architects, engineers, private investigators, and accountants; financial advisers; direct sales salespersons; commercial fisherman; some contracts for professional services for marketing, human resources administrators, travel agents, graphic designers, grant writers, fine artists, freelance writers, photographers and photojournalists, and cosmetologists; licensed real estate agents; “business service providers”; construction contractors; construction trucking services; referral service providers; and motor club third party agents. Districts should consult with legal counsel if there is a question as to which test to apply to a particular contractor’s occupation.*

### **Independent Contractors**

To be an independent contractor, substantial conformance with the following conditions must exist:

- The contractor is free from the control and direction of the District in connection with the performance of the work, both under the contract for the performance of the work and in fact;
- The contractor performs work that is outside the usual course of the District’s business; and
- The contractor is customarily engaged in an independently established trade, occupation, or business of the same nature as that involved in the work performed.
- Contractors can’t be ~~fire~~terminated ~~seas~~ long as they produce a result that meets the contract specifications, **– unless specified otherwise in the contract document.** Contractors may not be a current employee of the Antelope Valley

Community College District.

~~Contractors are responsible for the satisfactory completion of a job or they may be legally obligated to compensate the hiring firm for failure to complete.~~

### **Consultants**

Consulting services contracts refer to all services that:

- are of an advisory nature,
- provide a recommended course of action or personal expertise,
- have an end product which is basically a transmittal of information either written or verbal, and,
- are obtained by awarding a procurement-type contract, a grant, or any other payment of funds for services of the above type.

The product may include anything from answers to specific questions to design of a system or plan, and includes workshops, seminars, retreats, and conferences for which paid expertise is retained by contract.

## **1. Introduction**

- 1.1. This Standards of Operation document is intended to meet the requirement specified in Administrative Procedure BP/AP 3720, establishing Standards of Operation and practices for use of District technology resources.
- 1.2. The District recognizes that principles of academic freedom and participatory governance, freedom of speech and privacy of information hold important implications for computer use, particularly the use of electronic mail and electronic mail services. The District affords computer file and electronic mail privacy protections in accordance with existing law and as expanded by this document.

## **2. Access Authorization and Privacy**

- 2.1. Users are reminded that personal use of District technology resources should be limited to incidental needs. Except where excluded by law or by negotiated agreements, all data generated or stored on District systems is property of the District.
- 2.2. No Expectation of Privacy – The District reserves the right to monitor all use of the District network and computers to assure compliance with these policies. Users should be aware that they have no expectation of privacy in the use of the District network and computer resources. The District will exercise this right only for legitimate District purposes, including but not limited to ensuring compliance with this procedure and the integrity and security of the system.
- 2.3. Access to data stored on District property is granted or revoked by the authorization of the administrator or unit supervisor responsible for the District data in question.

## **3. Information Technology Allocation Standards**

- 3.1. The District shall define a standard for the IT resources assigned to users. This standard may be based on job function or classification. This will include any District resource that is assigned to an employee for the use in the performance of their jobs. Current standards can be found online here:  
<https://www.avc.edu/administration/its/standards>.
- 3.2. The Executive Director of Information Technology Services shall be responsible for developing and enforcing this standard. Development and implementation of standards shall be in accordance with the District's participatory governance processes.
- 3.3. These Standard of Operation will be made available to all online, and in print upon request.

## 4. Licensed Software and Services Access/Use

### 4.1. Email Accounts:

#### *Employees*

Email services are available for faculty and staff to conduct and communicate the business of the college. Incidental personal use of email is allowed with the understanding that the primary use be job-related, and that occasional use does not adversely impact work responsibilities or the performance of the network.

Email services are provided only during employment by the District. At separation, employee's email service will be deactivated; unless specifically requested by the employee and approved by the employee's respective vice-president or director. Extended accounts will remain active as long as they continue to serve the business needs of the District.

Individuals using the District email resources after separation shall not represent themselves as an employee of the District, or otherwise make statements on behalf of the District, or any unit of the District, unless appropriately authorized (explicitly or implicitly) to do so.

Employees are reminded that electronic data (and communications using the District network for transmission or storage) is viewed as property of the college and may be accessed and/or reviewed by authorized District officials for purposes related to college business. The District has the authority to access and inspect the contents of any equipment, files, or email on its electronic systems. Such access requires the authorization of the President / Superintendent, a Vice President / Assistant Superintendent, or the Executive Director of Technology.

#### *Students*

Email services are available to students to support learning and for communication by and between the District and themselves. The service are provided only while a student is enrolled in the District. Recognizing that students often opt out for a term and then continue their education at Antelope Valley College, student accounts will be discontinued only after a student has not registered for enrollment for one year.

Enrollment is determined by enrolled-in course(s) by the census date of a Fall or Spring term. Students are encouraged to migrate their email to an alternate account when they complete their studies with AVC. When students are no longer enrolled, the account will be removed, and students may no longer access the contents of their mailboxes, or associated services.

Students are advised that electronic data (and communications using the District network for transmission or storage) may be accessed and/or reviewed in accordance with the District's Acceptable Computer Use Procedure and

Regulation. The District has the authority to access and inspect the contents of any equipment, files, or email on its electronic systems.

#### *Retirees*

Employees who have retired with ten or more years of service to the District will be permitted to retain their email account.

#### *Alumni and Others*

Individuals with special relationships with the District, such as alumni, contractors, or official visitors, may be granted limited email privileges, including an email address, commensurate with need. The District is free to discontinue these privileges at any time.

### 4.2. Licensed Software Access

As an incentive when negotiating enterprise-wide licenses, or site licenses, vendors extend use of these packages to employees and/or students for use beyond the college on personal devices. Within the conditions of those licenses, which varies between vendors, the college may extend access to those packages.

Use of these packages is contingent upon a continued affiliation with the college. A list of these packages and their specific terms of use is available on the ITS homepage <https://www.avc.edu/administration/its>. The District may also institute storage quotas consistent with a person's affiliation in order to stay within the limits of their external service agreements.

At the end of a person's active affiliation with the District, except as described below, the person will uninstall and remove any software installed on personal devices obtained using a license from the District and ensure any data they have the right to retain and want to keep are copied to personal storage. The District will implement processes to remove any data left behind in discontinued District accounts.

#### *Employees*

Unless retiring, the employee will remove all district licensed software upon separation. Where software is accessed using any District account, the District will remove access to resources the employee is no longer entitled to.

#### *Students*

Access to Licensed Software Services will be linked to enrollment. Permissions will be retained until census date following their last full term of enrollment. Where software is accessed using any District account, the District will remove access to resources the student is no longer entitled to.

### *Retirees*

Employees who have retired, with ten or more years of service to the college, will be permitted to retain access to Licensed Software Services, where the vendor licensing permits, until age 65, or for three years past retirement, whichever is greater. Where software is accessed using any District account, the District will remove access to resources the retiree is no longer entitled to.

### *Alumni and Others*

Individuals with special relationships with the District, such as alumni, contractors, or official visitors may be granted limited email privileges, including an email address, commensurate with need. The District may discontinue these privileges at any time.

## **5. Cyber Security Training**

- 6.1 The Executive Director of Information Technology Services, or designee, shall be responsible for assigning and monitoring annual training.
- 6.2 The college will provide a minimum of one (1) hour of online cyber security training within an academic year for all employees. Training may be split equally between Spring and Fall semesters.
- 6.3 At a minimum, materials shall include modules on, cyber security, password security, personal information security, browser security, malware protections, and email security.
- 6.4 All employees are required to complete the training annually.

## **6. Acceptable Use Agreement and User Acknowledgement**

- 6.1. The District shall provide each user with an electronic copy, or a reasonable means to obtain a copy, of BP & AP 3720, and all related Administrative Procedures and Operational Standards.
- 6.2. Users will be presented electronically with the Acceptable Use Agreement annually. The user must acknowledge their agreement as a condition of the continued use of District information technology resources.
- 6.3. This document shall be included, within the activation process for student accounts upon admission, and in all new employee hiring packets.
- 6.4. AVC Acceptable Use Agreement

- Two-Factor Authentication (2FA) shall be used on all accounts, where applicable.
- Incidental personal use is permissible where it:
  - does not violate state or federal law or AVC policy
  - does not consume more than a trivial amount of system resources, to avoid inappropriate use of public resources

  - does not preempt any District activity
- Users are prohibited from the use of District resources for conducting a private business or for personal financial gain.

The District provides the highest degree of security possible when transferring data but disclaims responsibility if these security measures are circumvented and the information is compromised.
- The District is not responsible for loss of data, time delay, system performance, software performance, or any other damages arising from the use of District computing resources.
- Activities that place excessive strain on network resources should be avoided. Conducting activities such as Peer-to-peer (P2P) file sharing or use of any other similar technologies is prohibited and subject to disciplinary action.
- The confidentiality of student and employee information is protected under federal and state law and/or regulations. Any information regarding students or employees that might be accessed while using an AVC computer may only be shared with those who are authorized to have such information. Employees and students may not change, alter, copy, or divulge any such information except in execution of their assigned duties.

Minor infractions of these Standards of Operation, or those that appear accidental in nature, are typically handled internally by the appropriate supervisor or administrator, in consultation with ITS. In some situations, it may be necessary, however, to suspend account or computer access to prevent ongoing misuse while the situation is under investigation.
- 7.3. Serious infractions, such as unauthorized use, attempts to steal passwords or data, unauthorized use or copying of licensed software, violations of District policies or repeated violations of minor infractions may result in the temporary or permanent loss of access to computing facilities.
- 7.4. Offenses that are in violation of policy, local, state or federal laws may result in the immediate loss of access to computing resources reported to the appropriate law enforcement authorities for action, and may result in disciplinary action, up to and including dismissal.
